Scuba Ree 2017

(Ages 10 and Up)

Open Water Certification

Learning to dive is an exciting experience and an amazing introduction to the vast underwater world.

In the **classroom**, we will review eLearning materials, discuss safe diving practices, what-if's, and dive theory. The fun interactive sessions are based upon your study pace.

We'll then move what you've learned into the **pool**; covering techniques, and doing routine underwater tasks to elaborate emergency procedures. Your time in the pool will cement what we discussed in the classroom as well as introduce lots of tips on how to make you a better diver.

During the 4 Ope**n water dives**, we'll integrate some of the skills you've learned while pointing out lots of cool marine life. You will be diving in one of the most diverse underwater ecosystems in the world. It's a fun weekend of diving!

Schedule

(please schedule each session with Captain Rick's Diving Adventure)

Friday, May 12, 2017	Deadline to Call and Register 614-948-3481
May 15 – May 24, 2017	Come in to Complete Registration (Parents Required)/Orientation/Complete Swim Test
