BOY SCOUTS OF AMERICA
SIMON KENTON COUNCIL

Dear Unit Leader,

Now more than ever, our local food banks need our help. As unemployment rates continue to climb, the need for food in our community grows as well. And when there is a need for service, there is a Scout.

Please commit your unit today to participating in Scouting for Food this November by logging onto www.skcscouts.org/ScoutingForFood.

By committing to participate, Simon Kenton Council will provide you with as many Scouting for Food grocery bags and collection boxes to place at local businesses, schools and churches you would need to have a successful Scouting for Food effort in your community. You will also be a part of our total council collection results and have the opportunity to order special Scouting for Food patches for your unit.

Here are some ways you can join in the Scouting for Food effort in your community:

- Going door to door by dropping off a bag and a letter one weekend and returning the next weekend to collect the bag left on the doorstep (template letters available on website)
- Send home bags at your Church. Make an announcement one weekend and then collect the bags filled with canned goods the next weekend
- Set up a collection box at your Church. Keep it up the entire month of November
- Set up a box at your school or community center. Keep it up the entire month of November
- Set up boxes at area businesses. Keep them up the entire month of November

We hope to have 100 percent of our units participating in Scouting for Food during the month of November.

Donations collected by your unit can be delivered to the pantry or food bank of your choice. Just please remember to report your results and service hours online.

For additional details and to commit your unit, click here www.skcscouts.org/ScoutingForFood today!

Yours in Scouting,

Jeff Moe
