

SKC Master Camp Planning: Meeting Notes

April 14, 2020

17 attendees

Meeting Notes:

- Camp planning website is ready to launch. We will use Facebook for discussion and to collect comments. Those who don't have Facebook can send their comments via email.
 - Website: <http://skcscouts.org/cmp/>
 - Facebook group: <https://www.facebook.com/groups/SKCCMP/>
- Dave Cornell presented acreage plans from Camp Wehinahpay in New Mexico – a small- to mid-size BSA camp, Conquistador Council.
 - 358 acres for 300-person camp
 - 394 acres for 700-person camp
- This gives us a baseline from which to start – an idea of how much acreage is needed for each area. For example, it does not include parking, lake size, equestrian area, lodge, etc.

- Will need to plug in additional ideas from the sub-groups to get accurate acreage needs.
 - Also need to assess the topography of Chief Logan and Falling Rock properties. What is the usable space? Would these properties work for our needs?
 - Complete by end of the week, then send materials out to the group.
 - Still working toward a May recommendation for the Board.
-
- Next meeting: Monday, April 20 at 5 p.m.
